Pre-segmented Point Cloud

Python and Gephi	Python (time)	Python (psutil)	Python (NumPy)	Python (wasserstein _distance)

| Data Structure Visualization | Program Runtime Calculation | Memory Usage Calculation | Data and Data Structure Analysis using Density Thresholds | |

Qualitative Evaluation

Node Density Distribution in the Data Structures

Quantitative Evaluation

Runtime for Creating the Data Structures	Memory Used for Creating the Data Structures	Comparative Analysis on Subsampling Methods	Comparative Analysis on the Data Structures
